

13TH BUSINESS ANALYTICS & INTELLIGENCE SYMPOSIUM

21 & 22 JULY
2023

SYMPOSIUM & INVITED TALKS

Presentations

This year's symposium will see over all nine different projects being presented detailing the problem statement, approach, outcome and impact.

Invited Talks

We have a fantastic line up of speakers from the industry covering range of relevant topics from technology to business, opportunities, and challenges.

Workshops

DCAL in collaboration with Analytics Society of India (ASI) has organized two Post-Symposium workshops on "Data Visualization and Storytelling" and "Generative AI" scheduled on 23 & 24 July, 2023.

TWO WORKSHOPS

Data Visualization and Storytelling

This course is designed to give participants a solid grounding in fundamental data visualization, data storytelling learning concepts. This course is spread across 2 days and will have a plenty of hands-on exercises using real world datasets.

Generative AI: LLMs and GPT

This course is designed for Transforming Possibilities by harnessing Generative Artificial Intelligence with Large Language Models (LLMs), Generative Pre-Trained Transformer (GPT) and ChatGPT.

REGISTRATION DEADLINE 10 JULY 2023
